3.1 Heatmap Analysis: /course

No Snapshot Captured Yet

No visitors have stayed on this page (desktop) long enough for a snapshot to be captured. Visitors need to stay for at least 5 seconds.

💡 How snapshots work:

- Snapshots are captured after 5 seconds of page load
- This ensures the page has fully rendered
- Quick visitors who leave immediately won't trigger captures
- Once captured, the snapshot is cached for this device type

3.3 Heatmap Analysis: Homepage

The heatmap analysis visualizes user interaction on a psychology homepage. The main content area features a large blue header bar with the text "Our Services". Below it, a central section contains the text "Professional psychological support tailored to your unique needs and circumstances". A horizontal blue line serves as a separator. To the right, a vertical blue bar indicates scroll position. In the center, a white rounded rectangle highlights the "Individual Consulting" service. At the bottom, a callout box titled "We Value Your Privacy" includes a shield icon and a message about cookie usage, with a "Read our Privacy Policy" link.

3.5 Heatmap Analysis: /homepage

The image shows a heatmap analysis of a homepage. The background is dark grey. At the top, there is a light blue header bar with a small blue vertical bar on the right side. Below the header, the text "Welcome to" is in white, followed by "Mindspex Academy" in large blue letters. A teal-colored call-to-action button labeled "Learn More" is positioned above a red button labeled "Get Started". In the bottom left corner, there is a purple shield icon with a white checkmark. To its right, the text "We Value Your Privacy" is displayed in bold black font. Below this, a paragraph of text explains cookie usage and links to a privacy policy.
